

Gene class

Markers-

2645

Unique Nuc-seq-

812

Unique sc-seq-

2894

neuropeptide/hormones-

66

ligand-dependent nuclear receptors-

35

G-protein coupled receptors-

163

growth factors-

56

transmembrane receptors-

124

ion channels-

233

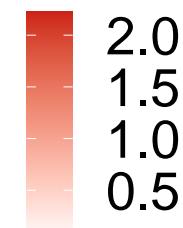

transcription regulators-

966

translation regulators-

92

density

0.0

0.4

0.8

Pearson correlation
